

**TRENTON MILLNER**

txmillner@gmail.com • (478) 714-3471

Talented IT professional looking to obtain a challenging position in which I can gain a great deal of experience and improve upon my skills and knowledge.

**SKILLS**

Languages	Java/J2EE, C, HTML, CSS, PLSQL, Javascript, PHP
Database Tools	MySQL, Oracle
Frameworks	Spring, Hibernate, Struts
Operating Systems	Microsoft Windows 7/8/8.1, Mac OSX 10.10, Linux
Software	Xcode, Visual Studio, Adobe Photoshop CS6
Other Skills	Illustration, 2D Design

**EXPERIENCE**

Dec 2013-Present     AT&T/Tech M, Associate Software Engineer

**EDUCATION**

Fall 2009-Summer 2013     Georgia State University, Atlanta GA  
B.S. of Computer Science with a concentration in  
Human/Computer Interaction, 3.24 GPA

**PROJECTS**

Custom CMS: Developed a custom content management system on top of which my website is built. Implemented using HTML, CSS, Javascript, PHP and MySQL. In development.

3D Graphics Render: Experimenting with alternative techniques for rendering path traced and virtually textured 3D graphics. Implemented using C and OpenGL. In development.

Retail Store Application Demo: Developed a Java based demo store application for customer facing AT&T employees to set up new customers and to sell sets of phone/TV/Internet plans. Implemented using hibernate, spring, and struts.

Central Drug Store Demo: Developed a Java and Oracle based demo application for managing a central pharmaceuticals repository from which several auxiliary branches could restock.

Point-of-Sale System: Developed, as part of a team, point-of-sale software. Contributed primarily to interface design, administrative features, user accounts management and interaction, and GUI using Java swing/awt.

Social Networking Site: Developed a social networking site similar to twitter complete with user accounts, posts and comments. Implemented using HTML, CSS, Javascript, PHP and MySQL.
